

# POPIS ŽRTAVA U KOTARIMA GLINA I VRGINMOST

**PRIREDILI:**

Matko Globačnik et al.

## UVOD

Nakon održavanja znanstvenog kolokvija „Što se uistinu dogodilo u glinskoj srpskopравoslavnoj crkvi između 29/30. srpnja i 4/5. kolovoza 1941.: svjedočanstva i kultura sjećanja” na Filozofskom fakultetu Sveučilišta u Zagrebu 28. i 29. lipnja 2012. godine, bilo je potrebno početi priređivati zbornik radova s kolokvija za objavu. Prema zamislima glavnog organizatora kolokvija i glavnoga urednika zbornika, Drage Roksandića, tada redovitog profesora na Odsjeku za povijest Filozofskog fakulteta, zbornik je trebao donijeti i popis svih žrtava kotara Glina i Vrginmost, stradalih od početka travnja 1941. do kraja siječnja 1942. godine. Dijelom je i zbog toga on akademske godine 2014./2015. na Poslijediplomskome doktorskom studiju Moderne i suvremene hrvatske povijesti u europskom i svjetskom kontekstu pokrenuo izborni kolegij „Nasilje, ovladavanje prošlošću i kultura sjećanja u suvremenoj povijesti”. U suradnji s Documentom – Centrom za suočavanje s prošlošću, doktorandice i doktorandi upisani na kolegij kao dio obveze za njegovo polaganje unosili su podatke potrebne za sastavljanje cjelovitog popisa glinskih i vrginmošćanskih žrtava u Documentinu bazu podataka. Matko Globačnik, tada doktorand na spomenutom studiju, od početka je koordinirao poslove među doktorandima i bio postavljen za jednoga od administratora baze.

Tijekom 2015. godine zaposlenik Documente Slaven Rašković na navedenome kolegiju podučavao je doktorande kako unositi podatke na fakultetskim računalima. Baza podataka, izvorno kreirana za žrtve Domovinskog rata, tijekom rada dodatno je prilagođena potrebama sastavljanja popisa žrtava iz Drugoga svjetskog rata, u smislu dodavanja banijskih i kordunaških mjesta koja nisu bila u bazi i oružanih snaga iz toga perioda. Dakako, tijekom rada iskrsavali su brojni problemi, ponajviše povezani s unosom podataka iz raznovrsnih popisa, sastavljenih u drugoj polovini 20. stoljeća i objavljenih u obliku knjiga, u suvremenu bazu podataka koja je bila koncentrirana na događaje (zločine) u koju su se unosili podaci o žrtvama, a k tome je bila opremljena zadanim poljima za popunjavanje i šifrarnicima.

Koristila se sljedeća literatura, u kojoj su objavljeni različiti narativni izvori i popisi žrtava s područja kotara Glina i Vrginmost u Drugome svjetskom ratu, za unos podataka u bazu:

Đuro ROKSANDIĆ, „Spisak žrtava fašističkog terora godine 1941. kotara Glina”, u: Branko VUJASINOVIĆ i Čedomir VIŠNJIĆ, *Glina 13. maja 1941. U povodu 70. godišnjice ustaškog terora*, Zagreb 2011.

*Sisak i Banija u revolucionarnom radničkom pokretu i ustanku 1941. Zbornik* (ur. Katarina Babić, Bartol Biličić, Zlatko Čepo, Ivan Jelić i Jozo Kovačević), Sisak 1974.

Ljubomir VUČKOVIĆ, *Glinski Trnovac i banijska ognjišta*, Beograd 1996.

Najveći dio podataka unijeli su doktorandi Matko Globačnik (posebice za kotar Vrginmost) i Igor Mrkalj (posebice za kotar Glinu), koji je neke podatke dodatno provjeravao u Matičnom uredu u Glini. Ostali doktorandi koji su znatnije sudjelovali u unosu podataka u bazu bili su (abecednim redom): Danijela Duvnjak, Nela Erdeljac, Mirko Marković, Marin Pekica, Alen Tahiri, Ivan Tomljenović i Aneta Vladimirov. U do sada posljednjoj fazi rada na bazi podataka radile su Paula Simon i Milena Žarković iz Documente koje su obišle sačuvane spomenike u današnjim općinama Glina i Gvozd s popisima žrtava iz Drugoga svjetskog rata. No, oni nisu uključeni u ovaj popis s obzirom na to da su podaci o njima nepouzđani pa tako za njih na spomenicima, dakako, nisu zabilježeni podaci o vremenu smrti. Posao unosa podataka u bazu, posebice iz popisa Đure Roksandića koji je bio mjerodavan za kotar Glinu, bio je necjelovit jer nedostaju datumi zločina, a iz knjige Dušana Baića, koja je bila mjerodavna za kotar Vrginmost, mukotrpan jer je ona davala veći broj podataka i bila je sastavljena drugom logikom od „događajne” logike koju je zadavala baza.

Teško je zamisliti kako je izgledalo sastavljanje tih popisa i davanje podataka o žrtvama u poratnim i poslijeratnim uvjetima, kada su čitave obitelji i mjesta bili doslovce istrijebljeni od ustaša. Zbog toga je bilo važno da su baza podataka i popis koji je proistekao iz nje humanizirani, odnosno da je svaka žrtva poimenično prepoznatljiva. Ne treba posebice spominjati da popisi iz navedene literature, sastavljeni za vrijeme komunističke Jugoslavije, nisu navodili poginule pripadnike Oružanih snaga Nezavisne Države Hrvatske, niti poginule članove njihovih obitelji, koji su rijetko kada poimenično navedeni, i to samo u narativnim izvorima.

Za velik broj žrtava u bazi postoji znatan broj podataka koji se mogu filtrirati po različitim parametrima, a za potrebe ovoga zbornika daje se popis koji po mjestima zavičajnosti žrtava daje njihovo ime, prezime, ime oca i godinu rođenja, kada su ti podaci dostupni. Ako ime ili prezime nisu registrirani u bazi, na njihovo mjesto stavljen je znak upitnika. Kriteriji po kojima su žrtve navedene na popisu u pravilu su njihovo mjesto zavičajnosti u tadašnjim kotarima Glina i Vrginmost (koji su opet za daleko najveći broj žrtava ujedno bili i mjesta njihove pogibije), kao i datum smrti od početka travnja 1941. do kraja siječnja 1942. godine, odnosno od uspostave Nezavisne Države Hrvatske do kraja „zimске ofenzive” na Baniju/Banovin i Kordun koja je otpočela krajem 1941. godine. Ovaj popis ne može biti kompletan niti bez pogrešaka. On je rezultat rada grupe doktoranada. Njemu tek predstoje ozbiljnija arhivska istraživanja koja bi ga potkrijepila i u bitnome dopunila.
